

**ASSA ABLOY**  
Opening Solutions

Sielox has designed innovative layered security systems for more than forty years. Sielox continues to develop a unique and highly focused integrated suite of access and emergency notification solutions for any size facility across numerous vertical and mainstream markets.

Sielox integration with the leading manufacturers of wireless locks provide a cost effective, real-time solution for those seeking true lockdown capability. Users may lock and block any or all doors allowing only privilege card holders access. Advanced features include Lock Toggle for single door locking and unlocking with one credential, Card + Pin dual authentication and Two-Man Rule functionality.

**Sielox**  
**Class**

The Sielox portfolio of advanced solutions designed for stand-alone or integrated implementation includes: Pinnacle® 10 Advanced Access Control, 1700 Intelligent Controller, CLASS Crisis Lockdown Alert Status System™ (CLASS), and AnyWare™ Browser-Based Access Control Platform.

Sielox provides best-in-industry OEM products to empower systems integrators to configure a wide range of tailored solutions to meet different needs. Sielox is proud to offer Layered Security Systems providing a smart way to protect people, property and assets with the highest levels of performance, reliability and cost-efficiency.

Since 1979, Sielox has built its expertise working with integration partners and end-users in all types of facilities using our "Made in USA" lockdown solutions.

The company partners with a network of regional and local systems integrators who provide Sielox Security Layer systems including CLASS lockdown alert level and physical electronic locking of perimeter and interior doors, the most comprehensive safeguard in the security marketplace today.

*Innovative Security Management Since 1979*

The Sielox Core Products line is designed by Sielox engineers and manufactured in the USA. Pinnacle software and the 1700 controller have been developed to meet or exceed any user requirement from entry level to enterprise-wide systems.

The marriage of advanced management software with an intelligent controller from a single vendor has been a proven technology and application success for our Business Partners and End Users since 1979. Built upon the Sielox access control innovation legacy, Pinnacle is a system designed with multiple layers of scalable control and the 1700 controller is unmatched in capabilities and serviceability.

With more than 250,000 controllers and tens of thousands of access control software systems installed since our start in Silicon Valley, Sielox continues to lead the industry with customer centric solutions, OEM integration like wireless locks and expert technical support.

AnyWare is a plug-and-play, browser-based access control solution affordable to small and mid-sized organizations. In today's world, you need to control and manage your security requirements from your desktop, tablet or mobile device. AnyWare allows you to easily deploy, manage and expand your access control requirements on the fly for up to 40 doors.

Innovation continues with the multiple award-winning CLASS - Crisis Lockdown Alert Status System - providing critical situational awareness benefits to First Responders. CLASS dramatically improves emergency response time with real-time status updates to aid in response and resource deployment for any facility. First Responders no longer walk blindly into harm's way by viewing dynamic floor plans and chat in real-time, with updates displayed on their mobile phone, tablet or patrol car laptop.

**About Sielox**
