

Pinnacle LDAP Sync Service

Pinnacle LDAP Sync Service is a Pinnacle add-on licensed service for dynamically importing and verifying user and cardholder data from LDAP to Pinnacle. Sielox customers using Active Directory (LDAP) can now use Pinnacle LDAP Sync Service for real-time authentication for Cardholder management.

This integration of Pinnacle with Microsoft Active Directory service through data synchronization (sync service) is a stand-alone utility providing the user an interface to Pinnacle LDAP Sync Service, eliminating dual cardholder entry.

Real-time integration and synchronization reducing redundant data entry

Reconciliation process to link LDAP users to existing Pinnacle Cardholders

“Review” mode provides sample reconciliation results before linking to Pinnacle

Automatically assign Access Level(s) to Cardholders based on Active Directory Groups

Easily configure field mapping from LDAP to Pinnacle fields (standard and custom fields)

Mapping Active Directory Groups to Pinnacle Classes

Seamlessly managing Pinnacle Cardholders via Active Directory

Scheduled synchronizations with results reported in log files

Increased IT policy adherence, minimizing typical data sync issues

Pinnacle Version 10.4 or newer and LDAP V3 (Microsoft Active Directory - tested)

About Sielox

Sielox Layered Security Systems provide a smart way to protect people, property and assets with the highest levels of performance, reliability and cost-efficiency. Since 1979, Sielox has built its expertise working with integration partners and end-users in all types of facilities. Our “Made in USA” lockdown solutions include the AnyWare Browser-Based Access Control Solution, CLASS Crisis Lockdown Alert Status System, 1700 Intelligent Controller and Pinnacle Advanced Access Control Software integrated with leading manufacturer wireless locks.
