

Purchasing Contracts

Sielox purchasing contracts provide an easy path for end users and security integrators to find, bid and procure security equipment at pre-negotiated prices. Sielox has been awarded two nationwide contracts providing no-bid cooperative purchasing for end users and authorized Sielox Business Partners.

PEPPM

The PEPPM Program bid is the result of a nationally affiliated group of Agencies, coordinated by the Central Susquehanna Intermediate Unit (CSIU) which seeks and awards bids on technology equipment, software and supplies on behalf of schools, agencies, non-profits and libraries.

The agencies soliciting the bids for their respective jurisdiction have individually awarded bids in their respective states, based on their own applicable statutes. However, the Agencies come together nationally for aggregating their demand for product and their buying power. In so doing, they have coordinated the bidding process with each other, and have centrally evaluated the bid responses. After awards, they coordinate on publicizing the contracts to school districts and other eligible agencies.

GSA

GSA is the government's savings agency and the wealth of our resources is not limited to federal agencies alone. The Cooperative Purchasing Program allows state, local and tribal governments to benefit from pre-vetted industry partners on a variety of information technology products and services as well as security and law enforcement products and services offered through specific GSA Schedule contracts. This program allows eligible entities to purchase from Cooperative Purchasing approved industry partners, at any time, for any reason, using any funds available.

Schedule contracts open under Cooperative Purchasing, include:

Schedule 84 - Used for the purchase of security and law enforcement equipment. It features alarm and signal systems, facility management systems, firefighting and rescue equipment, law enforcement and security equipment, marine craft and related equipment, special purpose clothing, and related services.

Visit gsa.gov

Cooperative purchasing contracts ensure the best price, adheres to statutes and regulations, maintains all bid documentation and delivers a reliable, convenient and easy-to-use bid and purchase process

Using Cooperative purchasing contracts can result in a lower cost of ownership of technology for schools, universities, libraries and government agencies.
