

Sielox purchasing contracts provide an easy path for end users and security integrators to find, bid and procure security equipment at pre-negotiated prices. Sielox has been awarded a nationwide contract providing no-bid cooperative purchasing for end users and authorized Sielox Certified Integrators. Cooperative purchasing contracts ensure the best price, adhere to statutes and regulations, maintains all bid documentation, and delivers a reliable, convenient, and easy-to-use bid and purchase process.

Using Cooperative purchasing contracts can result in a lower cost of ownership of technology for schools, universities, libraries, and government agencies.

## PEPPM

The PEPPM Program bid is the result of a nationally affiliated group of Agencies, coordinated by the Central Susquehanna Intermediate Unit (CSIU) which seeks and awards bids on technology equipment, software and supplies on behalf of schools, agencies, non-profits and libraries.

 The agencies soliciting the bids for their respective jurisdiction have individually awarded bids in their respective states, based on their own applicable statutes. However, the Agencies come together nationally for aggregating their demand for product and their buying power. In so doing, they have coordinated the bidding process with each other, and have centrally evaluated the bid responses. After awards, they coordinate on publicizing the contracts to school districts and other eligible agencies.

<a href="http://www.peppm.org">www.peppm.org</a>	Sielox CLASS - PEPPM Product Line Bid
