

# Enclosures & Mounting Plates

Sielox Enclosures come in two sizes that fit a single 1700 controller, or up to four 1700 controllers. The enclosures have a removable door and the Sielox logo. Each enclosure is equipped with built-in standoffs, grounding wire strap, tamper switch, knock outs from 0.75" to 2.0" inches on side and back and accommodates 1.5" to 2" Panduit.

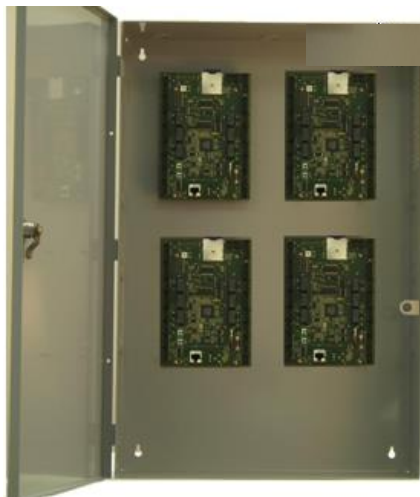

The large Sielox Enclosure can support an Input/Output expansion board with two 1700 Controllers allowing users to expand to 60 inputs or 60 outputs.

*Sielox Removable Door*

*Small enclosure with one 1700*

*Large enclosure fits four 1700s or combination or four 170 I/O boards*

*Large enclosure with two 1700s and one legacy Input /Output Expansion board*

Sielox Mounting Plates come in three sizes for mounting a single 1700 controller, or up to four 1700 controllers inside Sielox Enclosures. An I/O Backplane allows expansion of Input /Outputs.

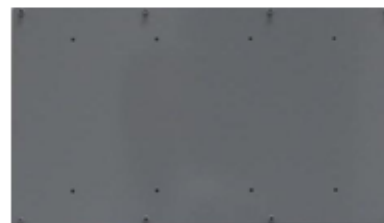

Single 1700

Four 1700s

Two 1700s

1700 I/O legacy backplane

SLX Part Number	Size	Configuration
<b>Enclosure</b>		
CN-SLX-LGENCL	17" x 22" x 3.5" (Sielox Large Enclosure)	Fits up to four Controllers
CN-SLX-SMENCL	12" x 12" x 3.5" (Sielox Small Enclosure)	Fits one Controller
<b>Mounting Plates</b>		
CN-SLX-1700-MTPLT	5" x 7"	Mounting Plate for one 1700 Controller
CN-SLX-1700-RTMTPLT2	16" x 8.60"	Retrofit Mounting plate – for mounting up to two 1700 controllers in the large Sielox Enclosure
CN-SLX-1700-RTMTPLT4	17.90" x 16.15"	Retrofit Mounting Plate – for mounting up to four 1700 controllers in the large Sielox Enclosure
CN-SLX-1700-IOMTPLT	15" x 8.60"	I/O Mounting Plate – for installation of BP5 or BP7 back planes in large Sielox Enclosure
